## **We need You to register all participants by the 15th of March.**

Under the title “Guest” you will register those who were called VIP in the previous competitions. They will have a bit different program during the games, but there will of course be time for watching the competitions.

The registration is binding, depending of the hotel's cancellation rules. If there are too few athletes in one sport, we might cancel it and then we will adjust the participation fee.

There are some critical sports at this moment and we would like You to consider once more if You can send athletes in following sports:

Football

Handball

Basketball

Tennis

Karate

We also gladly see that You will send para-athletes in Swimming, Athletic and Table Tennis.

**In the registration form you will find this information:**

User agreement

Your registration is binding and a fee of 100 Euro per participant will be charged in advance via an invoice to every participating country.
